VAGD Corner

Letter from the President & New Members

On behalf of the board members of the Virginia Academy of General Dentistry (VAGD), it is my pleasure to share this brochure of continuing education (CE) classes for 2015 and our goals for the year ahead.

Since 1952 the Academy of General Dentistry (AGD) has been providing CE for general dentists committed to improving the oral health of the community. In 2012, the VAGD sought to find a way to bring even more value to our members with the goal of being the go-to source for CE in Virginia. As we approach 2015, the VAGD will continue to bring outstanding speakers to our venues thereby assisting you in meeting your commitment to your patients and the community.

As a result of our growth, we currently have two hubs for CE. Our locations in Richmond, Virginia and Reston, Virginia make it easier for more members to attend continuing education courses closer to home. For you, our members, we will continue to provide high quality, low cost continuing education through our Fellowtrack program. For those who have received their Fellowship award, we offer our Mastertrack program. This program will provide the mentorship and camaraderie that will push you to take your dentistry to the next level. Through your membership and participation in VAGD activities, you will stay refueled and inspired to continue to give the very best to your patients.

If you are not a member, we trust that after attending one of our CE classes the value of membership will speak for itself. VAGD membership offers opportunities to stay current on what's new in dentistry, and to stay current on what is happening in Virginia that affects the business of dentistry. It is also an opportunity to meet new people and improve your office brand via awards and social media.

We hope to engage with all dentists more via our new website and social media. Please like us on Facebook to stay abreast of activities, continuing education and trends in dentistry. Visit our website for an easy way to give your feedback and ideas to make the VAGD an even better value. We are excited about the year ahead and trust it will be great for you and the VAGD!

Sincerely,

Theresa L. Shannon, DDS
President VAGD

Virginia AGD would like to welcome new members who joined between August 2014 and November 2014. We look forward to seeing you at an upcoming event!

- 21 Karl Koerner, DDS, "Oral Surgery: Faster, Easier and More Predictable", 7 CE Credits, 8:00am-5:00pm

Ronald D. Jackson, DDS, FACD, FAGD

Course 1

Dr. Ron Jackson is a 1972 graduate of West Virginia University School of Dentistry. He has published many articles on esthetic, adhesive dentistry and has lectured extensively across North America and abroad. Dr. Jackson has presented at all the major U.S. scientific conferences as well as to Esthetic Academies in Europe, Asia and South America. He is an Accredited Fellow in the American Academy of Cosmetic Dentistry, a Fellow in the Academy of General Dentistry, a Diplomate in the American Board of Aesthetic Dentistry and is Director of the Mastering Dynamic Adhesion program at the Las Vegas Institute for Advanced Dental Studies. Dr. Jackson practices comprehensive restorative and cosmetic dentistry in Middleburg, Virginia.

Composite Artistry: Give Your Patients Something to Smile About

The greatest impact of cosmetic or esthetic dentistry is providing patients with beautiful smiles that enhance self-esteem. However, materials and techniques have undergone significant evolution in recent years and dentists are challenged to keep current. In addition, esthetic standards have been raised and quality outcomes redefined by today's educated patient. Restoring anterior teeth with a single shade and single opacity is no longer acceptable.

This presentation will illustrate the versatility and value of using direct composite resin for treating anterior restorative needs and cosmetic desires. The logical, conservative techniques shown will lead to results that please patients and encourage referrals.

Topics to be covered include:

- Rationale of additive dentistry versus subtractive
- Materials and systems
- Opacity/Translucency, Form, Color, Characterizations, Texture and Surface contour
- The invisible Class III/IV, diastema closure - simple and easy, veneering a dark tooth, etc.

Lecture Objectives:

- To gain an appreciation for conservative direct resin restorations
- To discover the limitless versatility of direct resin in enhancing patient's smiles
- To learn the essential features of a naturally shaded composite system
- To be able to apply these conservative techniques practically and efficiently in a general practice
- To learn to do dental art without being artistic

Course 1

Subject: 780 - Esthetics
Credits: 7 CE Hours
Date: Friday, February 20 - 9:00am - 5:00pm
Location: Hilton Garden Inn Innsbrook, 4050 Cox Road, Glen Allen, VA 23060

John Nosti, D.M.D., F.A.G.D., F.A.C.E., F.I.C.O.I.

Friday, April 10 & Saturday, April 11 (half day participation)

Temporomandibular Joint Dysfunction and Treatment for the Everyday Dentist

Dr. John Nosti practices full time in Mays Landing/Somers Point, New Jersey, as well as Manhattan, New York, with an emphasis on functional cosmetics, full-mouth rehabilitations and TMJ dysfunction. Dr. Nosti is the Clinical Director for The Clinical Mastery Series, a continuum geared toward advancing the cosmetic/functional practices of dentists worldwide. He is a member of the American Dental Association, American Academy of Cosmetic Dentistry, American Academy of Craniofacial Pain, American Academy of Dental Sleep Medicine, American Equilibration Society, and the Crown Council. Dr. Nosti also holds fellowships in the Academy of General Dentistry, the Academy of Comprehensive Esthetics, and the International Congress of Oral Implantologists.

Course Synopsis:

Oral facial pain and TMD remain one of the most confused topics in dentistry today. Adding to this problem are the discrepancies in treatment methods among the different educational groups, while ALL of them claiming to have a high rate of success. Join Dr. Nosti as he differentiates the common TMD patient from the complex TMD patient. Learn who to treat, how to treat and when to refer.

Learning Objectives:

- Understand why some clicks hurt and some don't.
- Classify patients by both pain categories and restorative needs.
- Understand when "occlusion" matters.
- Rationales for splint designs.
- Understand what splint to use and where.
- Understand anatomy and physiology of the Temporomandibular Joint and muscles of mastication.

The Virginia Academy of General Dentistry, Program Provider #219330, is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry. The current term of approval extends from 6/01/12 to 5/31/15.

Subject: 180 -

Myofacial Pain and Occlusion

Neal D. Kravitz, DMD, MS

Saturday, April 11 (half day participation) & Sunday, April 12

Adult Orthodontic Treatment

Dr. Neal D. Kravitz is a Diplomate of the American Board of Orthodontics. He also serves as a clinical faculty member and research adviser at the University of Maryland and Washington Hospital Center. Dr. Kravitz is an dual Ivy-Leagued trained orthodontist who received his undergraduate degree from Columbia University (where he was Academic All-Ivy while playing for the Columbia Lions Football team), and received a Doctorate of Dental Medicine at the University of Pennsylvania School of Dental Medicine (where he graduated as Valedictorian).

Dr. Kravitz continues to publish his orthodontic technique and his remarkable cases in book chapters, educational guides, and numerous professional dental and orthodontic journals, including the AJO-DO, JCO, WJO, JADA, Angle Orthodontist, the Ontario Dentist Journal, and Orthodontic Products. He is viewed as leader in the field of orthodontics, currently serving on the editorial review board for seven refereed professional journals, the continuing education advisory board for dentalearning.net, and the clinical advisory board for Incognito® lingual braces, a committee comprised of less than ten orthodontists worldwide.

Course Synopsis & Learning Objectives:

- Adult Orthodontic Treatment
- Choosing the Appropriate Adult Patient
- Challenges and Limitations with Invisalign
- Phase I Interceptive Treatment
- Challenges with orthodontic retention

Subject: 370 -

Orthodontics (6 hours), 430 - Orthodontics (6 hours)

Credits: 12 CE Hours

*Note: Credits will be doubled when students return in the Fall to present short homework assignment.

Date: Saturday, April 11 - 1:00pm - 5:00pm & Sunday, April 12 - 8:00am - 5:00pm

Location: Protech Dental Studio, 1890 Preston White Drive, Ste. 300, Reston, VA, 20191. Registration begins at 8:00am

(Continental breakfast & lunch provided).

AGD 2015 SAN FRANCISCO

a golden opportunity

June 18 to 21, 2015 Moscone West Convention Center www.agd2015.org

AGD 2015 SAN FRANCISCO
a golden opportunity
June 18 to 21, 2015 Moscone West Convention Center www.agd2015.org

The Academy of General Dentistry (AGD) is proud to present its next annual meeting, AGD 2015 in San Francisco, June 18 to 21!

AGD 2015 promises to be a golden opportunity for personal and professional development that will help you distinguish yourself among your peers and demonstrate your commitment to your patients.

- At the annual meeting, you will:
- Hear from world-renowned speakers and industry leaders as they discuss the hottest topics in dentistry
 - Learn advanced techniques and treatments from leading clinicians in a multitude of disciplines
 - Experience the latest innovations in dental equipment, materials, products, and services in the exhibit hall
 - Network with your colleagues during a number of exciting social events

And what better place to experience all that AGD 2015 has to offer than in the lively, culturally rich city of San Francisco? Just like dentistry, the city is always evolving and full of possibilities.

Mark your calendars now to attend AGD 2015, and be sure to check www.agd2015.org for the latest updates.

a golden opportunity

Why should you attend AGD 2015? Take it from some of the world-renowned speakers who are scheduled to present:

"From all I have seen, experienced, and read about people who rise to the top of their field, it is the relentless pursuit of personal and professional development that sets us all apart from the pack." —Uche P. Odiatu, DMD

"Every motivated dentist wants to provide the highest level of care for his or her patients. Only by keeping an open mind and learning new aspects of the art and science of dentistry is this possible. AGD 2015 will provide many opportunities to do this." —Gregory L. Psaltis, DDS

"AGD 2015 is a can't-miss for the discerning general dentist who values evidence-based continuing dental education. The numerous subject areas encompassing all aspects of dental practice will be provided by respected clinician-scientists from around the world." —Henry A. Gremillion, DDS, MAGD

Your reputation. Your assets. We're watching like a hawk.

When a dentist came to us for a review of his practice insurance, our analysis revealed that his former advisor had inadvertently left his practice equipment uninsured for nearly ten years. We immediately provided him with property insurance, reduced the cost of his **malpractice insurance** by 15% with a **Professional Protector Plan® for Dentists** package policy, and saved him \$500 on his **workers compensation insurance**. Then we offered to consolidate management of his **disability, health, life, auto, homeowners insurance, retirement plan*, and investments.*** No more oversights...
We're watching like a hawk.

2015 Virginia AGD Colonial Conference

Corky Willhite, DDS Fri., November 20

Transitional Bonding: Non-Traditional Composite Restorations for Major Occlusal and Esthetic Changes

Dr. Corky Willhite has achieved Fellowship by the Academy of General Dentistry, the American College of Dentists and the American Academy of Cosmetic Dentistry. He is one of only 60 Accredited Fellows in the AACD of over 6,000 members worldwide. He has served on their Board of Governors (currently the American Board of Cosmetic Dentistry) and spent years as an Examiner for Accreditation. He is an Adjunct Assistant Clinical Professor in the Department of Comprehensive Dentistry and Biomaterials at L.S.U. School of Dentistry. He is on the faculty of the Center for Esthetic Excellence in Chicago and post-graduate esthetics programs at Eastman Dental Center and the University of Minnesota. He has been published and feels honored to have so many opportunities to lecture nationally and internationally. Over the years, his private practice in suburban New Orleans, The Smile Design Center, has become limited to Cosmetic Dentistry. His experience is based on a dedication to the belief that "excellence" and "esthetics" are not only compatible, but can take dentistry to a new level of satisfaction and success.

Course synopsis:

Learn a practical technique using composite that offers many advantages over traditional composite or porcelain restorations. Patients—including those that need extensive changes for function and esthetics—love conservative treatment, whether for financial reasons or just because they don't want their teeth "drilled down." Requiring virtually no prep even for smile make-overs and full mouth rehabilitation cases, long-lasting results can be expected. This course is very different than other resin courses. It is NOT about how to layer the resins, tints and opaques but covers additional information that will help any doctor master their Composite Bonding skills.

Learning objectives:

- How to provide solutions for common problems (such as severe wear)
- Why porcelain isn't always the best option...even in non-compliant patients
- How to build large composite restorations quickly and conservatively
- Practical occlusal principles for maximizing longevity
- Enhancing tooth topography for the most natural look (learn each tooth's specific key contours to prevent the "Chiclet" look)
- Treatment planning, using a practical system to quickly determine the best smile— customized for the patient—while delivering excellent function

3M ESPE

Karl Koerner, DDS Sat., November 21

Oral Surgery: Faster, Easier and More Predictable

Dr. Karl Koerner teaches oral surgery course to dentists in the U.S. and internationally. He has authored or coauthored five oral surgery texts, published many peer reviewed articles, and made surgery DVDs – several with Practical Clinical Courses in Provo, UT. Although a general dentist, he received surgery training in the U.S. Army. In 2010, he received the National AGD's Weclaw Award for his contributions to dental education. He has presented at many ADA meetings, CDA meetings, Greater New York meetings, Chicago MidWinter meetings, and the Hinman - to name a few. He resides and practices in Utah. Procedures he performs in his practice consist only of exodontia, implants, and regenerative surgery.

Course synopsis:

Many extractions look easy but can soon become difficult, time consuming, and lead to complications. This course reviews the best techniques and instruments to remove "surgical" extractions easily and quickly while conserving bone. Also covered are multiple extractions and ridge preparation for dentures along with flaps and the most common suturing techniques. In addition Dr. Koerner reviews some un-complicated socket grafting methods, bleeding management, avoiding sinus problems, anxiety control for surgery patients, and other topics as time permits.

Learning objectives:

As a result of attending this course, the dentist will be able to:

- More easily do "surgical" or difficult extractions that frequently occur in general practice.
- Be more proficient at ridge preparation for immediate dentures.
- Select appropriate socket grafting cases and have the knowledge to select them successfully
- Prevent and/or manage bleeding problems that can occur during oral surgery.
- Control patient anxiety related to oral surgery.
- Perform oral surgery according to current standards of care.

If paying by credit card, fax to 312.335.3443.

AGD Headquarters Dues: (See above rates) _____

Virginia Constituent Dues: (See above rates) _____

Total Amount Enclosed: _____

Individuals joining July 1 to Sept. 30, 2015, pay half the annual headquarters membership dues (does not apply to student, resident, first-year graduate, or affiliate members). Individuals joining Oct. 1 to Dec. 31, 2014, enjoy membership through the end of 2015. Paid dues will be applied to the upcoming year.

Per the U.S. Revenue Reconciliation Act of 1993, 1.2 percent of membership dues payment is allocable to the AGD's lobbying activities and is not deductible as a business expense. Please consult with your financial adviser for detailed information.

Dues rates effective through Sept. 30, 2015. Contact the AGD or visit www.agd.org for updated rates.

There are nearly 15,000 general dentists in the United States. Join the AGD today to take advantage of the variety of benefits to help you differentiate yourself and your career.

AGD Member Benefits

The Academy of General Dentistry (AGD) is the only organization that exclusively represents the interests and serves the needs of the general dentist. Start taking advantage of our member benefits today—join the AGD by visiting www.agd.org or calling 888.AGD.DENT (888.243.3368).

Continuing Education

Discover quality continuing education (CE) opportunities—at both the local and national level, and in a variety of formats—to help you provide the best patient care, learn about the latest technologies and procedures, and emerge as the educated voice of general dentistry. Plus, you can submit CE to the AGD in a variety of convenient ways—via the Web, email, mail, or fax—and we'll track your courses with our members-only CE transcripts.

Achievement Awards

Stand out among the competition, gain instant credibility in your profession, and establish your commitment to lifelong learning and quality patient care with the prestigious AGD Fellowship and Mastership awards, the only achievement-based awards in general dentistry.

Award-Winning Publications

Stay informed on the latest general dentistry news and research with complimentary subscriptions to the AGD's award-winning print publications, *AGD Impact* and *General Dentistry*, along with extra content available exclusively in the digital editions.

Advocacy and Representation

Join the organization that serves as the voice of general dentistry. The AGD ensures that general dentists and supporters of the profession can speak up when it matters most, helping members unite their voices on legislative and regulatory activities affecting their right to practice within the United States.*

AGD Annual Meeting & Exhibits

Take advantage of discounted registration to the AGD Annual Meeting & Exhibits, where you can earn CE, check out the latest products and technology, and network with your colleagues.

Patient Education Tools

Offer your patients educational reading materials in your waiting room with AGD oral health fact sheets, which cover a range of topics and are customized with your practice information. You also may direct your patients to learn more about their oral health through KnowYourTeeth.com, the AGD's consumer-facing website, and www.2min2x.org, an educational website created by the Partnership for Healthy Mouths, Healthy Lives—of which the AGD is a proud member—and the Ad Council.

Practice Management Resources

Access practice management tools and tips to help you run your practice more efficiently, receive personalized assistance with your practice questions, and get free insurance contract analysis.

Member Savings

Receive immediate access to the AGD Member Savings & Offers program, which provides you with exclusive savings and special offers on the personal and professional products and services you need most.

Career Center

Take advantage of the AGD Career Center, where you can post your résumé and browse employment opportunities, or post job listings and browse potential candidates.

Social Media

Connect with other members and stay up-to-date through the AGD's Facebook, Twitter, LinkedIn, YouTube, and Google+ accounts. You also can listen to the AGD Podcast series and read our blog, *The Daily Grind*.

*Canadian dues rates reflect limited advocacy benefits.
